

ESG WEBINAR

“Responsible Investing: Facing the investment future”

Your Invitation

Part two of IFA Magazine's ESG webinar, in association with M&G Investments, takes place on

19th May 2020
10:00am – 11:00am

Delivering impact and financial returns

The world is facing a rising tide of societal challenges, from the potential chaos associated with the breakdown of our climate, to unsustainable levels of waste and pollution, to vast and growing social inequality.

Governments around the world lack the resources needed to deal with these challenges on their own.

Because of this, investment capital is vital, and impact investors are playing an increasingly pivotal role in directing this capital where it is most needed.

This session will provide delegates an insight into how investors can allocate capital to make a difference, as well as generate a financial return.

This will also be an opportunity for you to ask M&G Investments any questions you may have. The event will include one hour CPD for those who register.

RSVP - To book your place email kim.wonnacott@ifamagazine.com
